58 inches high

15.5 inches deep

13.75 inches wide

---

### THE COLLECTION

For the first time Liquitex introduces a color collection! The Special Release Muted Collection will also be the first range to bring to life the new Liquitex brand positioning and be the biggest NPD for the brand in 2016. The collection will help to bring our USP to life (intermixability and color matching) and will stimulate the trial of new formats.

### COLORS

The range consists of 5 colors matched across 3 ranges (Heavy Body, Soft Body and Ink!). These unique color tones have been inspired by 2016 trends. Each color has a muted, subtle character reflected in the naming rationale. These colors are not intended to be a mixing palette, instead they are a tonal palette.

### THE PORTFOLIO

The collection features 19 new SKUs:

- 15 loose colors - entry level gifting
- 3 sets - premium gifting
- 1 Counter Top Unit

All SKUs are now available with availability through the end of 2017.
